

Harken's Garden Center & Landscape Supply, LLC supplies only the finest quality, hardy nursery stock raised for our own growing zone (5). Our stock is state inspected, to assure you of the healthy plant materials that are free of pest and disease problems. However, due to digging, shipping, handling, etc., some plants, no matter how careful all of us are, may not survive.

Because of this, we guarantee retail sales of our evergreens, shrubs, trees, perennials, and hardy non-tropical & submerged aquatic plants (for Zone 5) for one full growing season from date of purchase, at 100% of the purchase price with a one-time replacement, if planted and cared for according to Harken's recommendations. A growing season is a period of time during which plant growth takes place. In temperate climates the growing season is limited by seasonal changes in temperature and is defined as the period between the last killing frost of spring and the first killing frost of autumn, at which time annual plants die and biennials and perennials cease active growth and become dormant for the cold winter months. Harken's Garden Center does not guarantee plants against extreme weather conditions or mechanical injury resulting from lawn mowers, weed eaters, animals, etc. Free guides and planting instructions are available at our information center for your convenience. Be sure to ask our trained horticulturist for any additional information you may need to make your landscape and/or gardening experience a pleasant one. Please feel free to ask for assistance.

For credit on nursery stock items, THE PLANT MUST BE RETURNED WITH YOUR CASH REGISTER SALES RECEIPT FOR CREDIT REDEMPTION.

Harken's Garden Center does not guarantee roses, water plants, tropical, citrus plants, annuals, grasses, or hardy mums.

We do however, want to make your growing experience a successful and enjoyable one, so please ask us for any additional information that may be helpful.
